# **Segundo Parcial Base De Datos Masivas**

Caren Juliana Arevalo Vargas
ID:838908

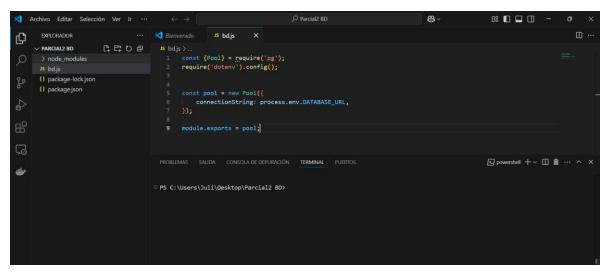

Corporación Universitaria Minuto de Dios William Alexander Matallana Porras Bases De Datos Masivas 1. Creación de la carpeta para los códigos: Crearemos la carpeta que se abrirá con visual studio code para empezar con la creación de los códigos para su ejecución.

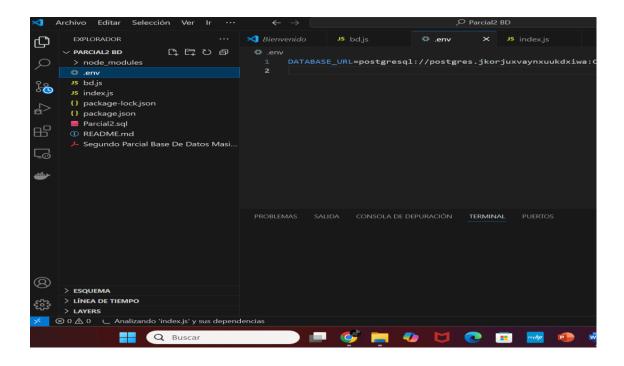

2. Empezaremos a crear los índex y demás para empezar a realizar la conexión

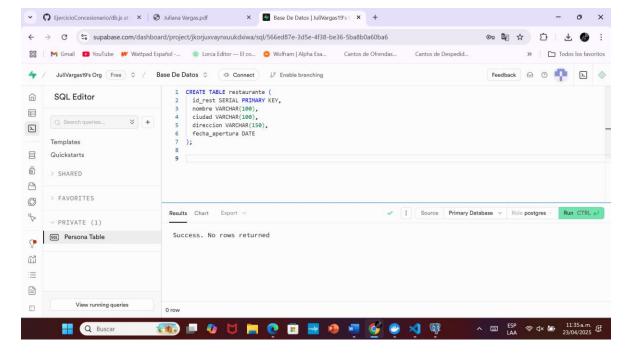

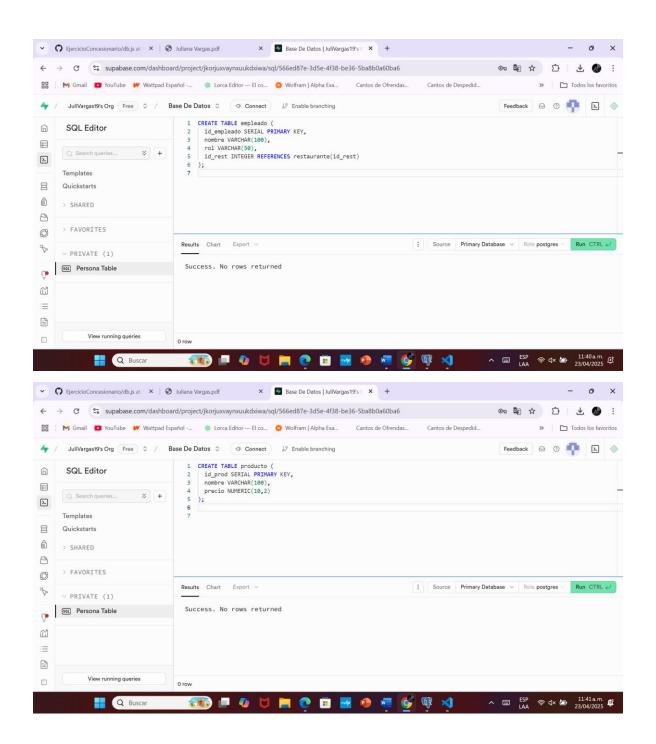

Y crearemos un archivo .env para la conexión

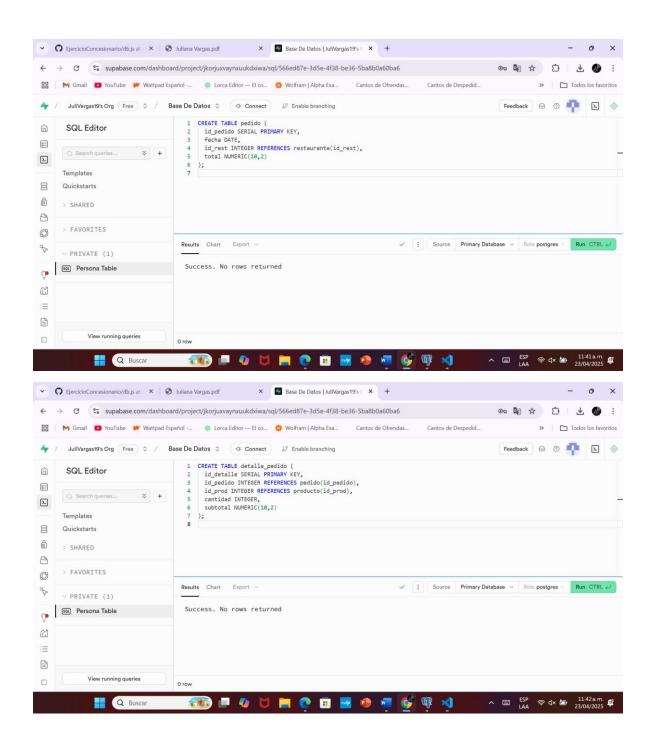

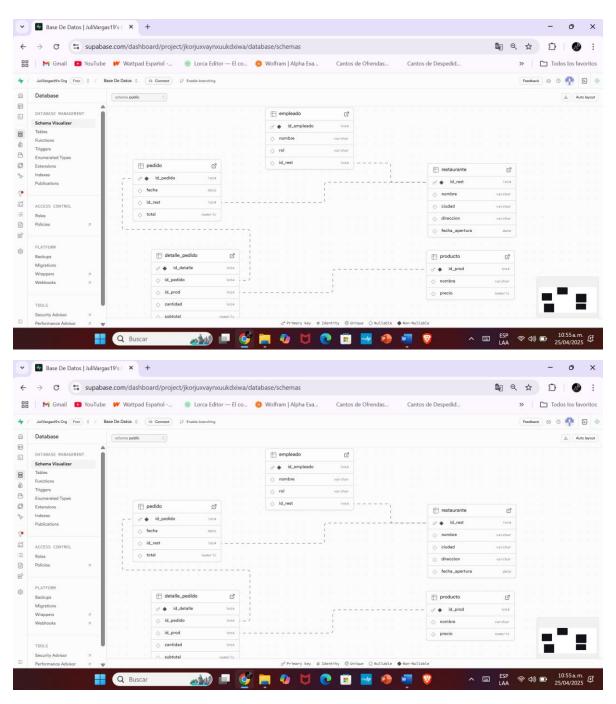

3. Podemos empezar a crear nuestras tablas en supabase

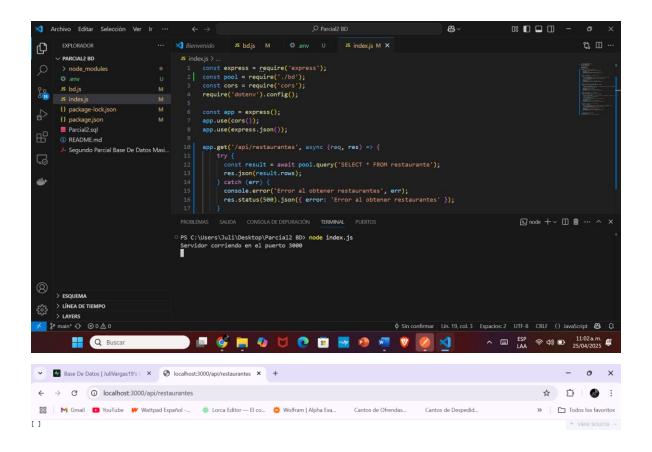

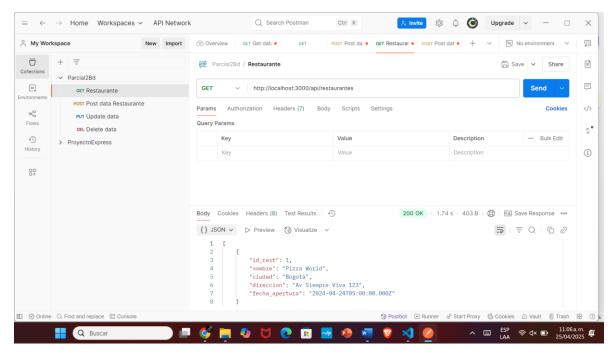

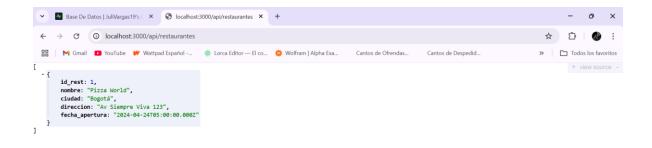

**4.** Una vez las tablas creadas empezaremos a realizar el crud de cada tabla empezando por restaurantes

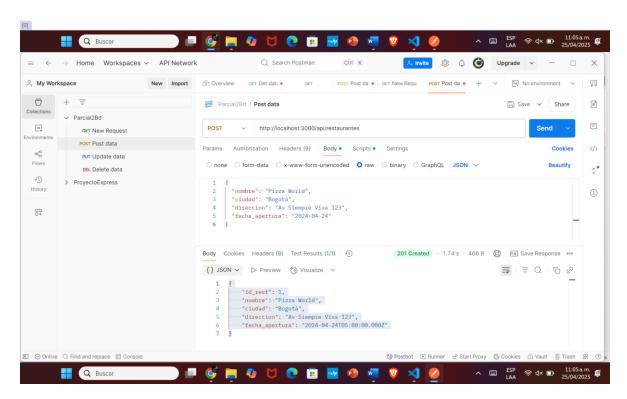

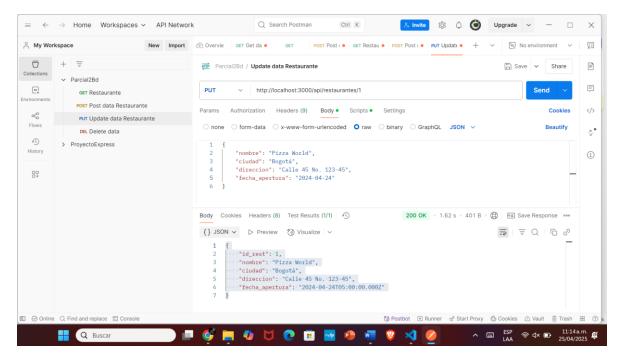

## **POST**

**Update** 

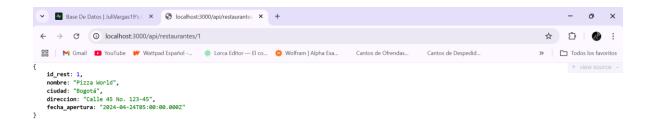

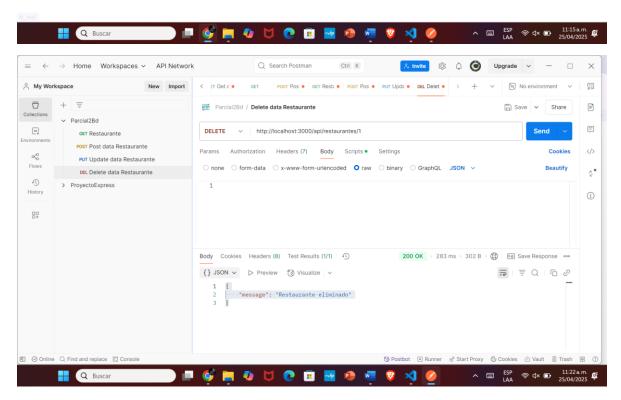

#### Sin actualizar

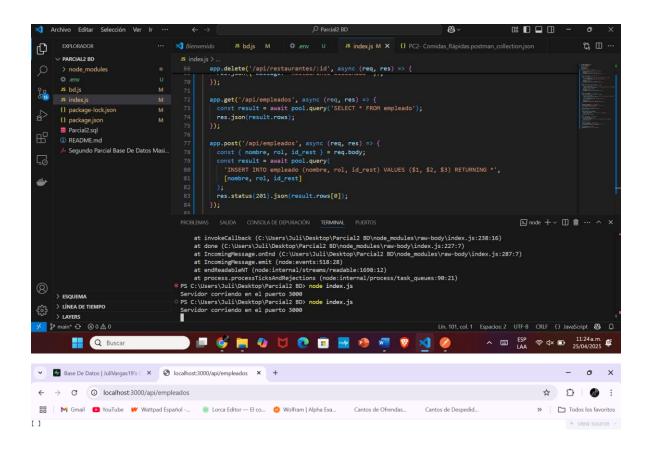

## **Actualizado**

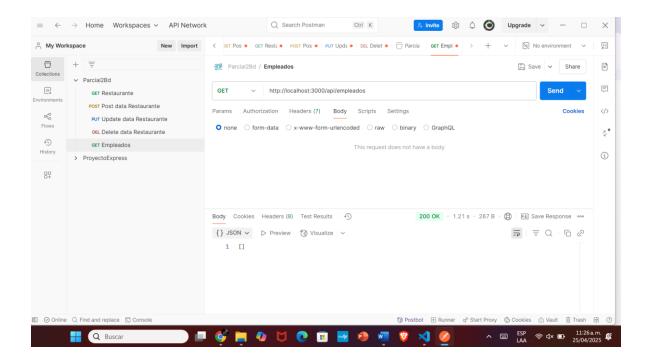

5. Seguimos con el crud de empleados

### **POST**
